Vontobel Asset Management

Portfolio provider for Multimanager-Strategies.

Our company

Vontobel Asset Management is one of Vontobel Group's three business units. As a specialized multi-boutique asset manager, we offer innovative and transparent investment solutions for private and institutional clients. Our aim is to generate added value for our clients. We pursue this goal on the basis of clear guidelines and with a high level of commitment.

Entrepreneurial independence

As part of Vontobel Group, founded in Zurich in 1924, we combine the innovative power of an international asset manager with the tradition of an independent Swiss private bank. Vontobel Holding AG is a public company with a stable core of shareholders. The majority of the bank's shares are held by the Vontobel families and the Vontobel Foundation. Our shareholder structure and financial strength represent the cornerstones of our entrepreneurial independence. We are guided by solid long-term values - for the benefit of our clients.

Active asset management

Our investment expertise revolves around a passion for active asset management. In other words, we select the securities for our portfolios by applying specific criteria. We do not engage in passive investing, for example by replicating the performance of an equity index. Our goal is to generate above-average performance. In pursuit of that goal we nurture talented staff who can develop creative investment ideas and arrive at independent assessments.

A clear quality concept

Quality lies at the heart of the services we provide. To live up to our standards, we consistently align our investment strategies with client benefits, go to great lengths to ensure our products are transparent, and provide investors with regular information. Our concept of quality also includes spotting new promising trends.

Multimanager-Strategies bank zweiplus.

Our investment philosophy.

- + Our experts analyze the major global economies, currencies and interest rates for you. They define the portfolio structure – i.e. the allocation of assets to different asset classes such as equities, bonds and real estate – painstakingly and comprehensively.
- + Our experienced portfolio management and global research teams select every single security.
- + By choosing Vontobel Asset Management, you pick an experienced, forward-looking and independent partner with global expertise in active investing.

“For me, performance means providing a successful investment strategy.”

Dr Thomas Steinemann, Chief Strategist, Vontobel Group
