

Information only for Swiss financial service providers

## bank zweiplus - creates added value

Customised financial services

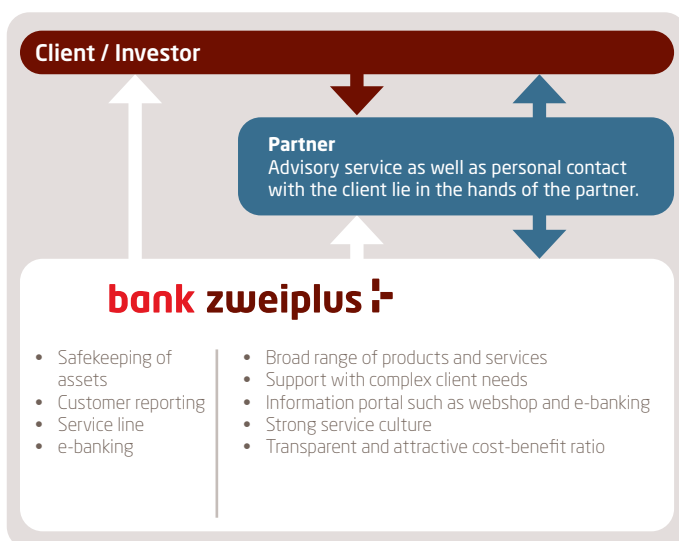

### Portrait of the bank zweiplus

bank zweiplus with its registered office in Zurich, is a Swiss Bank. As a financial product and transaction execution platform for financial service providers. It provides qualified financial service providers, asset managers and insurance companies a customised needs-oriented and modular range of services.

Thanks to the expertise of its team of specialists, coupled with versatile infrastructure, bank zweiplus is positioned to provide proven high-quality services focused on the demands of its partners. As a transaction-oriented bank, bank zweiplus is able to flexibly surmount highly complex challenges. Furthermore, the bank zweiplus boasts vast know-how and an acknowledged wealth of experience regarding its partners' core business.

### The business model

### The product range

Our modular product and service range is tailored to the needs of financial institutions and their clients. This allows bank zweiplus to offer its partners a wide range of savings, investment and pension products, and specifically tailored to the customers' financial solutions, independent of a particular supplier.

As a custodian and settlement bank, we take responsibility for properly executed transactions and the safekeeping of client funds entrusted to us. We also provide financial services providers, asset managers and insurance companies with our expertise in the field of private labels and develop products for them with their brand name. Our freely combinable offer is completed with customised services such as a service line, e-banking with an individual access for financial advisors or support marketing and sales documents.
