

## WisdomTree

WisdomTree is a global financial innovator with a big idea and an impressive mission – to create better ways to invest. We pioneered fundamentally weighted exchange-traded funds (ETFs) in 2006 that equally prioritised cost efficiency and performance. Today, we offer a broad range of differentiated ETFs and exchange-traded products (ETPs) with \$102.89 billion in assets under management (AUM) globally<sup>1</sup>.

WisdomTree Europe launched in 2014 and, today, provides one of the most innovative ranges of UCITS ETFs and ETPs across all asset classes. We believe that the greatest gains are not found by following the crowd but by reimagining the opportunities that ETFs and ETPs are able to offer investors in our dynamic and changing world.

### ETF of the month

#### **WisdomTree Global Quality Dividend Growth UCITS ETF - USD**

[Factsheet](#)

WisdomTree Global Quality Dividend Growth is a physically backed ETF that tracks the price and yield performance, before fees and expenses, of the WisdomTree Global Developed Quality Dividend Growth Index. With this ETF you gain access to high quality, dividend growing companies from global developed markets which meet our ESG criteria.

Our strategy has outperformed the market since launch in 2016, particularly in high volatility markets, helping to reduce drawdowns and time to recovery including some outperformance in other volatility regimes. We consider this to be an 'all weather' combination, whereby strategically holding it can capture the upside by also protecting the downside.
